

Comparing and Merging Files with GNU diff and patch

Comparing and Merging Files with GNU diff and patch

Authors: D. MacKenzie, P. Eggert, R. Stallman

Retail Price: \$19.95 (£12.95 in UK)

ISBN: 0-9541617-5-0 (ISBN-13: 978-0-9541617-5-0)

Format: Paperback (6"x9")

Content: 120 pages

Printed on acid-free paper

Publisher: Network Theory Ltd

Publication Date: December 2002

About the Book

This manual describes how to compare and merge files using GNU diff and patch.

It includes an extensive tutorial that guides the reader through all the options of the diff and patch commands. Later chapters cover powerful time-saving techniques such as automatic merging of divergent branches of a source tree.

This is a printed copy of the official GNU diffutils manual. It documents all the diffutils programs (diff, cmp, sdiff, diff3), plus GNU patch. The versions covered are the 2.8 release of GNU diffutils and 2.5 release of patch.

This book will be of interest to all software developers working on Unix systems.

Ordering

Retail customers can order this title from most bookstores using the ISBN number. In case of ordering difficulties, please email sales@network-theory.co.uk.

For trade orders, the book is available worldwide through the following wholesale suppliers:

Ingram	USA	www.ingrambookgroup.com
Baker & Taylor	USA	www.btol.com
Gardners	UK / Europe	www.gardners.com
Bertrams	UK / Europe	www.bertrams.com

If listed as out-of-stock this is only temporary—please place an order with the wholesaler as normal and new copies will be printed on demand within 5 days. Titles ordered through wholesalers are sold on a “firm sale” basis.
